PCN-10646

PCN Title

Surface Finish Standardization of Machined Aluminum (A Series) Backshells

Notification Date

18 September 2024

Implementation Date*

18 September 2024

Part Description

Machined Aluminum (A Series) Backshells

Affected Part Number(s)

See affected parts [list](#).

Change Description

Removal of additional surface preparation process (tumbling) to the aluminum backshell components, including base, cover, and clamps (as applicable). There will be no part number changes.

Reason for Change

Improvement of surface finish and overall aesthetic integrity due to enhanced machining capabilities.

Performance Impact

No performance impact, cosmetic only

Distinguishable Characteristics

Surface finish will change from a matte finish to a brighter finish.

Current Finish

New Finish

Qualification Data

None

** The implementation date is the projected date that customers may begin to receive changed product. Based on the rate of inventory depletion of current product, the implementation date may be later, but not earlier, than the stated date. Although customers should be prepared to receive changed product on this date, Positronic may continue shipping current product until a time in which the inventory has been depleted. This would result in current product being shipped to customers after the stated implementation date.*
